**Available March 2008**

## Fujitsu Siemens SCALEO<sup>®</sup> Home Server 1500

The **SCALEO Home Server** functions as a media centre for the home. Storage can easily be increased, using internal & external hard disks, as required. All data – plus backup & recovery for systems in a home network – are managed via an easy-to-use web-based interface. Users are able to access their multimedia content from any networked PC in their home, & remotely via the internet. The SCALEO Home Server is near-silent in operation & comes with special energy management software that minimises power consumption but nevertheless guarantees on-demand system availability.

- Genuine Microsoft Windows<sup>®</sup> Home Server
- Intel<sup>®</sup> Celeron<sup>®</sup> 4xx processor
- 512 MB DDR2 SD RAM
- 256 MB Flash memory
- 500 GB SATA2 hard disc 7200 rpm\*

- 10/100/1000 Network Interface
- 4 x USB 2.0 (2 front, 2 rear)
- 2 x e-SATA (rear)

\*SCALEO Home Server 1900 with 2 x 500 GB is also available

## Fujitsu Siemens SCALEO<sup>®</sup> Home Server 1500

The **SCALEO Home Server** will be available in the UK and Ireland with two different storage capacities – the SCALEO Home Service 1900 model boasts a capacity of 1TB (2x 500GB hard drives) & the Home Service 1500 model stores up to 500GB. Both models feature modern, quiet SATA2 hard drives running at 7200rpm & can be further extended by adding external hard drives via USB or eSATA connection. Both models offer Gigabit Ethernet connection for LAN networking & the new Microsoft Windows Home Server operating system is pre-installed.
